THE CARTMEN .- A meeting of this body was held on Thursday night at Montgomery Hall, No. 76 Prince-et, for the purpose of taking the state of their business into consideration. Mr. Bacck occupled the chair. Mr. McGrath stated that he believed that one of the causes why their business was so depreceed, was that there were a great many in it who did not pay license, and if they intended to carry out their views, they should not work in the same employment with unlicensed men. Nevertheless, on the strike they should not abuse or assault those then, for if this was attempted they would lose the respect of their fellow-citizens. And it should be made known that the price demanded for riding coal was not so much as was allowed by law, but from which price the employers had, from time to time, reduced the price to its present pittance, so that they were no longer able to support their families, and it became a necessity to strike for the purpose of obtaining a mere support. It was then resolved, on motion, that cards of membership be issued, in order that all belonging to the Society would know each other; and also that they would advertise the names of the bosses and coal merchants who gave the price demanded, in order that the public might know them and deal with them, as they intended to appeal to the public for support in so just a cause as theirs. After the passing a resolution pledging all present to support the strike, the meeting adjourned.

THE LATE FATAL STABBING CASE ON BOARD THE SIMP SURPRISE.—Coroner O'Donnell yesterday held an inquest, at the New-York Hospital, upon the body of James Murphy, late boatswain of the ship Surprise, who was fatally stabbed on the 10th ult., during an affray on board that vessel. A large amount of testimony was taken, which only went to show that the deceased and one of the crew had a fight upon the quarter deck; after which the men went into the foreeastle, deceased following them and ageneral fight ensued which resulted in Murphy being fatally stabbed. He died at the Hospital on Monday last. The evidence did not implicate any one is particular and the three sailors who had been arrested were discharged. The Jury rendered a verdict of death by wounds and stabs spon his body, inflicted by some person anknown to them. The deceased was an American, 35 years of age.

SUDDEN DEATH OF A SOLDIER.-Mr. Daniel Underhill, Senr., one of the veterans of the War of 1812, died suddenly on Thursday night, at the house of Mr. Bradbury, No. 282 Hudson-st. He retired apparently in good health at an early hour in the evening, found yesterday morning dead in his bed. Coroner Gamble held an inquest upon the body, and a verdict of death from hemorrahage of the lungs was rendered. The deceased was a native of New-York, 68 years of age. The Veteran Corps of 1812 will bury wim with military honors.

LETTER FROM ALD. BARR. To GEN. J. WATSON WEBB:

SIR-In the leader of The Courier and Enquirer of Monday, when reviewing the card of Gro. B. Bur-LER, and exhibiting him in his proper colors, the fol-

owing:
"We have said that we know neither Thomas J. Barr
nor Geo. B. Butler personally; and for ought that has
"yet appeared, one is as worthy of belief at the other."
Now, Sir, this is most unjust to me and to yourself; thought I am well satisfied you did not intend any such injustice. It is manifestly unjust, because every reader of The Courier and Enquirer well knows that in your estimation Mr. Butler's oath is absolutely worthless; while you certainly have no reason to believe that I would knowingly swear falsely. As Mr. Butler has raised the question of veracity between us, and The Courier and Enquirer has placed us on a par as regards verselty, you must excuse me if I demand as a right, the following evidence that George B. Butler is nawor-ty of belief, even under outh-enach less when he of-ters his chapte statement of facts.

In 1850/ you, Sir, had a controversy with the Hudson River Reilroad Company, based upon a contract made with you for the right of way across your property, by James Boorman, in presence of George B. Butler and the late Thomas Snowden, who was well known and universally respected in this community. Mr. Boorman affected to have forgotten the conditions of the contract, and, Mr. Snowden being dead, Mr. Butler was, according to your own statement, the only living witness to the contract. In this state of the affairs, and after you had deliberately set forth to the Board of Directors of the Hudson River Railroad Company your version of the bargain, appealing to Mr. Butler as the witness who was present, that worthy voluntarily made annificavit, which he published in The Journal of Commerce, denying that he was even present when say bargain was made by you and Mr. Boorman in re-lation to the right of way across your property!

Now, Sir, that affidavit was e if you are worthy of belief under outh, Mr. Butler's affidavit was wickedly and knowingly false. In support of this position I quote from your own columns the following affidavit:

the following affidavit:

Crys are Courty or Naw York, is, —J. Watson Wesh, being duly sworn, deposeth, and says, that when the blodeon Rives Radeon Congasty were about to reminence the construction of their read iff James Boorman, and Mr. George B. Rather, now the President and Secretary of the word Contrasty called at the office of this device, and in the presence of his chash, James Sun-eden, significant, and the conditions this deponent would guar the wall Company the ration by Property. This deponent and that he being rath of way across his property. This deponent and that he being rath of way across his property. This deponent and that he being rath, forming a boy on the river and the ines of read cuman across the ration of the form at communication, with the view for farm and other purposes—anning of more or, feet, &c., &c., and appared whether, in tuch cares, the law side on compact the cases of the first of the sequency, and a bricke to sensy to build a dark in fount of this respect, y, and a bricke to sensy to build a dark in fount of this respect, y, and a bricke to sensy to build a dark in fount of this respect, y, and a bricke to sensy to build a dark in fount of this respect, y, and a bricke to sensy to build a dark in fount of this respect, y, and a bricke to sensy to build a dark in fount of this means on events. This was consected by the said beforement and Barber and the deposed them and that it the Company would hand a dock, and bridge the bay soul keep the same in reject, as the low composite them to do, he would keep the same in reject, as the low composite the property antiscredit annual the trains, except the through trains to and from Albany, should at the kneel and a supposite the property. Increased and has insently, when accompanied by any mention of his limits. To this like the company would very choserule active that the excessify worken agreement in regard to the floor and Dock to do in regard to the standard on to stop the trains, we add so a strong smiller machine the setting for the right of way with othe s. But its and Boccomes promptly conceded that each so, ranger dampened would be all budicious or for the Company, and said that although it was not of a budicious cuts for the Company, and said that although it was not of

anders beed to Mr. Thomas Showmen, that is not been as been set forth.

And this depotent further says, that sometime in the menth of Mr. 1988, this depotent legated has piece to Mones II. Granell, who was infor speed by this depotent being atopsed opposite the resolution of this depotent of the depotent of the agreement with Mr. theorem.

Particularly, the proceeded to the other of the depotent has been supported by the depotent of the depot but Mr. Gramment, he engelt to consend to come may be Board again, or weeds to that effect. This deponds a decimal materials the reasonables we shall be such as the process of the consended to the reasonables we wished. He advord may wouth Mr. Grammel's counting recons, related to him which had pureed between the Pressurent, Mr. Butter and this deponds, and urged he going lack into the Board. Mr. Grammel prompts consented to do not and this deponds went directly from the container room of Mr. Grammel to the office of the Companyand report for the Pressurent and Mr. Butter, when were all particular to the content to the content to the Dressurent and Mr. Butter, when were all particular to the office, that Mr. Grammel had consented to become a Derector, to the office, that Mr. Grammel had consented to become a Derector to the office, that Mr. Grammel had consented to become a Derector, and this deponent has no doubt but that Mr. Grammel is now in the load of the Directors, moder file arrangement between eet forth. And between the deponent such not.

3 WATSON WEIR. Sworn to before me, this first day of Pec., 1829, James W. Mara, Commissioner of People. Here then was presented a direct issue of veracity between you and Mr. Butler, and there is no escape from the fact that one of you had knowingly sworn falsely. Your witness, Snowdon, was dead, and although you could not call up his spost to put down Mr. Butler, you created a new witness in the person of Mr. Flagg, the present worthy Controller of the Cky. and formerly President of the H. R. R. R. Co., and in The Courier and Enquirer of the 7th of July, 1861, you proved the truth of your affidavit and the value of Butler's verseity on oath by the following testimony. Mr.

"When you sent me a copy of your ashdavk a sew "weeks since, and informed me that you intended to "weeks since, and informed to do se, I dai not consider "publish it, if compelled to do se, I dai not consider that there was any altusion in it connected with my name to which I could object."

After expressing his great reluctance to have any publication made under my (his) signature, he proceeds to say:
"In again looking at the afideest, I can see nothing in actees
is which I could contradict."

if your own outh, in opposition to Butler's, had not been already sufficient to destroy all faith in that pur sonage, the foregoing from Mr. Plage placed the question at rest. But you did not pause here. As additional testimony of the truth of your statement, and what would have been the testimony of Mr. Snowden, if living, you also published the following:

Sworn in before me, this sixth day of February, 1851.

Jose Carrivors, Commissioner of Deede,
Here is testimony authinizer. Alienct and convent

Here is testimony sufficient, direct and circumstantisl, to overwhelm a regiment of such men as Butler, and yet, in a printed circular addressed by you to the H. R. R. R. Company, on the 10th December last, now before me, you make to the Board of Directors this

"In this connection I feel at liberty to state, that the "late Soul Alley informed General James Talm adge that
"he heard Mr. Butler, in conversation with me, recite
"every particular of our agreement as set forth in my af"fidavit; and that immediately after, upon Mr. Butler's
"coming into the President's room, he rebuked him for being a party to such an arrangement, and gave him potice that, as one of the Directors of the Company, he "should vote against it when brought before the Board
"for its approval." This, I am well aware, is not legal
"testimony; but it is of great importance in a contro"versy where both parties are desirous of doing what
"is right and seeking after the truth."

Now, Sir, there is but one conclusion at which disin-

terested men can arrive in relation to this matter; and that is, either you and Geo H. Andrews and William O. Mumford have all sworn falsely, and Mr. Flagg written a false statement, and the late Saul Alley and Thos. owden maliciously stated a falsehood, or else George B. Butler, the Editor of The Journal of Commerce, stands convicted of false secaring. You know, Sir, whether, under the circumstances, it is just to say to this community, through the columns of The Courier and Enquirer, that George B. Butler and myself are equally worthy of belief. ALCOHOL IN ITS RELATIONS TO MUTRITION AND HUMAN LIFE -Professor Youmans delivered the second of a course of lectures on the above subject at Rev. H. W. Beecher's Church, on Thursday evening, before a highly respectable and interested audience. After describing the composition of the human frame. and explaining the process of digestion, he said that as the body was the thrater of constant change, and that the presence of water was essential to the manifestation the presence of water was essential to the manticistation of life in all beings, it was not essenty to examine the effect of alcohol, which was antigonistic in its operations. Water was the first measury to life, and the first question to examine was whether alcohol could be used as a substitute. He demonstrated that it could not; being a highly inflammable substitute is expelled the water, and thus as the latter was necessary to digestion it had the effect of preducing dyspessis, and opened the course to all sorts of discusses. Alcohol does not direct, neither does it pass from the body through the ordinary channel, but soaks through the cost of the stomach isto the entire system. It use tends to coagain a that which

FRIDAY, April 1-P. N. In Stocks the market was moderately active to-day, and prices were generally sustained. Misoragua, however, under the advices from San Juan, fell off in the morning to 30], a decline of | P cent. but recevered at the Second Board to 314. The Railreads were not very firm. Erie declined at | P cent. Hudgon River i. Harism | do. Norwich and Stonington were arm. The transactions in Coal shares were not very large, but some kinds were buovant again. Parker Vein sold at 365, buyer thirty. Cumberiand, 531. New Creek, 24. Phoraix, 231. The Mining shares were well sustained. Great Northern Lead sold at the Second Board at 6, an improvement of 82 Pohare. Pototnac. 34. New Jersey Zinc, 121, &c.

The Market is not very active for Exchange. but quotations are sustained. The supply of outside bills is fair. The range of quotations is 8 39; per cent, there being but few bills sold over 9t per cent. Prancs are 5.174-85.124.

In Freights shipments were firmer to Liverpool &c : 2/49/3 is asked for Flour 71d for Grain. We hear reports of 1,000 bbls. Flour 2/9, 25,000 bush els Grain 5/97), the latter figure being not well sustained; 250 bbls. Lard 20/; 50 tuns Bacon 27/6; Course 9-39d. @5 16d : 800 to 1,000 bbls. Resin 2/6 #2/9. The Receipts at the Sub-Treasury are \$109,465; Payments, \$67,580; Balance 7,436 98.

The money market continues active, but the supply is fair at 7 P cent. on call. Paper goes at 7@ Deent for first class. The Banks are still under short sail and appear disposed to keep so. The Street is comparatively easy and Stocks are carried with greater facility. The payments from the interior coatinue to be prompt and large and a great many goods are being sold for cash. About half a million in gold was received from the mint to-day, which will tend to relieve the market.

The North Carolina Six per cent. loan of \$500,000, was taken yesterday by Mesers Cammann & Co. at 105,02. The aggregate bids were over two millions, and ranged from 106,27 to 95. The bid of Mesers. Cammann & Co. gave the largest result for the whole loan, and it was awarded to them. A portion was taken to go abroad, and resales have been made to-day at 1071. D. W. Courts, Esq., the agent of the State here for pegotiating this loan, has been untiring in his exertions in placing the merits of this loan be fore our capitalists, and in gathering and exhibiting the statistics of wealth and prosperity of the "North State," and to his exertions is due much of the success which attended the negotiation

The bids for \$400,000 6 12 cent bonds of the New-Haven and Hartford Railroad were opened to day at the Union Bank, and a portion was awa, ded at rates ranging from par to 1 P cent. premium.
